

DEATH OF HOSTAGES HAS BEEN AVERTED

PRISONERS EXCHANGED TO SAVE DEPUTIES' LIVES

Striking Miners at Cripple Creek, Col., Do Not Carry Out the Threats Which They Made to Murder the Officers Who Fell Into Their Hands.

CRIPPLE CREEK, Colo., May 28.—A terrible fate faces one or more men held as hostages by union miners on Bull Hill. They are threatened with death by the miners, and the first to go will be Samuel McDonald, manager of the Strong Gold King and Anna Lee mines. He faced death in the Strong mine when it was blown up Friday morning and with two others stood ready to sell his life dearly behind a barricade in one of the drifts until the miners guaranteed him protection. Then he came up and surrendered. Yesterday morning, inflamed by their victory in the retreat of deputies, the miners decided to kill McDonald if their own men taken prisoners were not released. They would exchange man for man until the six union men were free, else McDonald's life would be taken and then the others would be executed.

COLORADO SPRINGS, Colo., May 28.—At 11 o'clock last night the sheriff agreed to release the three men he holds in custody here. President Calderwood of the union replied they must be delivered with their arms on Bull Hill. The sheriff refused.

There was another conference this morning and three strikers were released in exchange for three deputies.

WAR AT MINONK ILLINOIS.

Troops Over the Grounds to Quell Rioting—Sheriff Was Powerless.

MINONK, Ill., May 28.—The miners here have begun stopping trains and the civil authorities are powerless to control them. The governor was called upon yesterday for troops, and three companies are promised to arrive early this morning.

During the last twenty-four hours the mining situation here has changed. The men who were disposed to use only moderate force have become sullen and surly and one would not recognize them as the same set of men. They are no more determined to win now than they were before, but a totally different spirit is manifested. The miners had a shift of men out all last night to watch the situation and stop all coal. The Illinois Central had seemingly abandoned its service until a little before noon yesterday, when a train with two cars of coal and Division Supt. McCourt and Trainmaster Daily on it came to town. The miners were gathered at the cross roads to the number of 150 and had driven links in coupling pins between the rails and the guard rails in such a way that when the flange of the engine wheels struck them the locomotive would be derailed.

When within fifty feet of the crossing the train was stopped, miners having climbed aboard when they stopped at the depot and set the brakes and pulled the pins. The railroad officials tried to reason with the men, but it was no use. The train did not move until nearly 5 o'clock, when it was sidetracked to let a freight train pass, the obstructions having been removed to accomplish this.

Great unrest is felt throughout the city, as it is reported that men have been sent to Toluca, Rutland and Wenona to get the miners at those places to come here to-day, when it is thought that the thing will be brought to a head. The sheriff will not be able to muster enough men to quell the riot should any trouble occur and has applied to the governor for aid, which is promised.

As soon as it was known that the sheriff was swearing in a big lot of deputies the miners went to their homes and procured what firearms they had and are in an ugly mood. In getting the deputies Sheriff Toole had his men make the rounds of the churches and serve their papers.

At midnight the men are arranged around the bonfire or the cross-roads and settled down to make a night watch of it. They have removed the obstructions from the track, but are in readiness to replace them should occasion demand.

RIOT AND BLOODSHED FEARED.

Strikers Declare They Will Kill Negro Miners.

PITTSBURG, Pa., May 28.—The first attempt to break the big coal strike will be made at McDonald Station, on the Panhandle railroad, in another week, and with it is expected to be precipitated one of the greatest labor riots on record. W. F. Rend, the millionaire operator of the Jumbo mines, near the McDonald oil fields, has posted notices saying the men must be at work next Monday morning one week or their places will be filled by imported negroes. The strikers, incensed at the peremptory tone of the notice and the warlike preparations on the part of the employers, are gathering arms and ammunition. They say they will shoot the negroes down. The populace sympathizers with the miners, and a conflict there at this time it was thought would eclipse in violence and bloodshed the great Homestead riots. The latest reports show that the miners of Tom's Run, Moon Run, and Montour Junction have sworn to stand with Rend's

men when the first strike for freedom is made. They realize that if a successful start is made at the Jumbo mines the great strike will be practically broken. They, too, are arming themselves with all possible haste.

TOWN MAY BE SWEEPED AWAY.

Missouri River Rises Rapidly and Cuts Away the Banks.

ATCHISON, Kas., May 28.—During the forty-eight hours ending at 6 o'clock last evening the Missouri river has risen nearly six feet. The rise was sudden, and great damage is being done to property in the vicinity of East Atchison. The town of East Atchison has been protected heretofore by a strip of land known as the point and which extended for several yards into the river. This "point" has been cut away, however, and the main current of the stream strikes the town almost directly from the north. It will probably be only a question of a few hours until the current has full sway from this direction and the place will be swept away.

THE COMMONWEALERS.

Carter and His Industrials Reach Pueblo—Sullivan at Norwalk, Ohio.

PUEBLO, Colo., May 28.—Carter and 300 industrials reached Pueblo yesterday morning after a continuous ride of twenty-four hours on top of a Rio Grande freight train.

NORWALK, Ohio, May 28.—Sullivan's contingent of Coxey's army, who arrived here yesterday afternoon, are comfortably quartered in a hay baling warehouse.

TOPEKA, Kan., May 28.—H. H. Artz, who was removed from the adjutant-generalship of Kansas by Gov. Lewelling, will lead the contingent of the commonwealth army to Washington. Sanders received a company of thirty-eight men here last night and Artz was elected captain.

ITS OFFER \$9,000,000.

English Syndicate Has Big Money for Elgin Stock.

CAIGAO, May 28.—Stockholders of the Elgin National Watch company have under advisement the acceptance of an offer by a British syndicate to purchase their entire holdings, including the issue of the corporation. The syndicate's offer is to pay \$2,000 a share and purchase the \$1,000,000 issue of bonds. As there are 4,000 shares of stock the sale would mean the transfer of \$9,000,000 of British currency to the 150 stockholders who own the Elgin National Watch company. The par value of each share is \$1,000 and the syndicate is willing to pay twice its face value. It is thought the offer will not be accepted.

Fatal Riot at a Church.

HAZELTON, Pa., May 28.—During a riot yesterday at St. Casimir's Polish church at Freeland Victor Tipnoky and Peter Yosmoski were fatally shot. James Travinski and Joseph Dutch were less seriously injured by the weapons of the police, and Chief of Police James Gallagher and Officer Jones of the police force were injured by stones thrown by the crowd. A factional fight has been waged for a year in the church, and the enemies of the pastor, Mazotos, attempted to prevent him from entering the church. His police escort was attacked by the mob and the officers fired upon them.

For a Brotherhood Federation.

NEW YORK, May 28.—The Grand railroad convention of six great bodies of employees began yesterday at the Lenox lyceum. The bodies represented were the locomotive engineers, locomotive firemen, switchmen, telegraphers, trainmen, and conductors. One thousand and eight hundred delegates were present and to-day, when the real business of the convention begins, it is expected 2,500 will be in attendance.

Pittsburg G. A. R. Convention.

CINCINNATI, Ohio, May 28.—General passenger agents of the Pennsylvania, Baltimore & Ohio, Southwestern, Big Four, Erie, Lake Shore, Pittsburgh & Lake Erie, Pittsburgh & Western, Allegheny Valley and other roads will meet here the first week in June to decide on the details of transportation for the national encampment of the Grand Army of the Republic at Pittsburg in September. Owing to the hard times there will likely be greater inducements offered the veterans this year than ever before.

Railways in Need of Coal.

HUNTINGTON, Ind., May 28.—The Wabash road has issued an order that local freight trains run only every other day until the coal miners' strike is settled. There are prospects that wood will have to be resorted to. A test made yesterday was fairly satisfactory. The New York, Pennsylvania & Ohio railroad is short of coal and has called upon the Chicago & Erie for relief. The latter road has just loaned 100 carloads to the Nypano.

Fire Destroys Store and Warehouse.

WHITEHALL, Mich., May 28.—At an early hour yesterday morning fire destroyed the two-story and basement store building of Albert Meers and his large warehouse, 60x100 feet and three stories high. The loss will approximate \$10,000, with insurance of \$2,500. The fire was undoubtedly incendiary.

Ask a Pardon for Gen. Coxey.

SPRINGFIELD, Mo., May 28.—At a meeting of Coxey sympathizers last night resolutions were passed denouncing the treatment of Coxey

COAL MEN APPLY TO FEDERAL COURTS.

MINERS PROCEEDED AGAINST LEGALLY TODAY.

Inter State Commerce Law Invoked to Prevent the Ransacking of Cars By the Strikers on the Chicago & Eastern Illinois—Outbreak Feared in Many Illinois Fields.

TERRE HAUTE, Ind., May 28.—The Eastern Illinois today applied to the federal court, asking protection for its coal trains against the miners. The appeal is under the interstate commerce law. All trains on the Evansville and Terre Haute railroad were held up at Shelbyville, south of this city yesterday and examined by the striking coal miners. If no coal was found the trains were allowed to proceed, but when coal was found the cars were sidetracked. On the Big Four the trains were also held up and examined. Several box cars loaded with coal were taken from the trains at Fontenot, east of this city.

Threaten to Blow Up the Troops.

LA SALLE, Ill., May 28.—It is said the strikers and their anarchistic sympathizers have planned an attack on the troops with dynamite bombs. The camp is under double picket guard. Five loud explosions coming quickly one after another were responsible for some little excitement in the National Guard yesterday. The sounds to people in La Salle indicated that the reports came from Springfield. Col. Bennett and the sheriff admit they can find out absolutely nothing of the source of the explosions. It is known there is dynamite in the hands of some of the strikers. The explosions probably came from this source, but whether the discharges were accidental or experimental is mere conjecture.

Mayor Mathiesen and others believe the miners will go to work to blow up the mines here if the troops are taken away.

Outbreak Feared at Marseilles.

OTTAWA, Ill., May 28.—Six of the ringleaders of the strikers who were arrested at La Salle Saturday were yesterday brought to Ottawa and placed in the county jail. Only one can speak English and he refused to give the names of the prisoners. Sixty men with rifles are on guard at the jail and if any attempt is made to rescue the prisoners the mob will meet with a hot reception. Everything is quiet at Marseilles. The miners, however, are frightened and will not go to work this morning. Many fear an attack from Streator, and it is anticipated by the sheriff and deputies that there will be trouble at Marseilles at daybreak.

Propose to Fight the Strikers.

PEORIA, Ill., May 28.—The people of Elmwood are thoroughly aroused and propose by the force of arms if necessary to prevent any interference with the men at work in the Phelps mine. Three hundred citizens have formed a home guard and the mayor telegraphed a request to Gov. Altgeld for 100 stands of arms and 2,000 rounds of ammunition. The governor responded that these equipments had been shipped by express. Serious trouble is also threatened at other mines in this immediate vicinity.

DECATUR, Ill., May 28.—Quiet

prevails here. It is expected 100 or more men will apply for work at the mines this morning, and Sheriff Perl and the police have prepared to prevent trouble.

Want Pattison for Arbitrator.

PHILADELPHIA, Pa., May 28.—Blood will not be shed in the Clearfield coal region to-day, the miners having decided to wait for a few days and ascertain if the national board will permit them to settle their troubles with Gov. Pattison as arbitrator. The operators here declare they will not give in. The Pennsylvania railroad transports in all sections nearly one million tons per week. The strike is a serious blow to the corporation. Ferryboats and other steamers at this port were paying \$5.50 per ton per ton for coal yesterday. Mills are shutting down in all directions. The east is feeling the effects of the strike and a demand has gone up for settlement.

Urgent Request for Coal.

COLUMBUS, Ohio, May 28.—In the absence of President McBride at Springfield, Ill., Secretary McBryde is holding the fort at national headquarters. Requests from manufacturers to be allowed to mine coal are coming in rapidly. Secretary McBryde says it has not been decided what to do in these cases. More money is lost every day by the idleness of the mines than all the contracts that are preventing a settlement put together.

Sheffield Miners Quit Work.

SHEFFIELD, Ill., May 28.—The miners at this place have been forced to lay down their tools. They quit work yesterday to avoid trouble. The strikers and their sympathizers at Springfield threatened to come here and create a disturbance. As the temper of these fellows has been manifested the men here decided to quit.

Operators and Miners to Confer.

SPRINGFIELD, Ill., May 28.—Coal operators and miners of the central and southern Illinois coalfields will hold a conference here to-day. The object is to endeavor to reach an agreement whereby the existing trouble may be settled so far as those fields are concerned.

CAVING OF A BLOCK KILLED FOUR MEN.

BERLIN THE SCENE OF A TRAGEDY TODAY.

Building on Koch Street Collapses and Four Men Are Instantly Killed—Three Badly Hurt—Russia Startled by a New Ukase—Order of the Czar Causes Consternation.

BERLIN, May 28.—Four men were killed and three injured by the collapse of a Koch street building.

MADRID, May 28.—Further details have been received of the explosion that occurred on the Norwegian steamer Norden at Gijon, on the Bay of Biscay. The steamer was taking coal when one of its boilers exploded with terrific force. Its decks were shattered and the boats and deck fittings were blown to splinters. Some of the debris was carried across the quay at which the vessel was lying and a piece of timber struck a dock laborer, killing him instantly. Five of the crew of the Norden were killed and several others were either scalded or injured by the flying debris.

NEW UKASE FROM THE CZAR

Russia Astonished By Its Rulers Latest Edict—General Surprise.

LONDON, May 28.—A special dispatch to the Times from St. Petersburg says: "The most important reform of a retrogressive and centralizing character yet executed by the present czar is announced in an imperial ukase bearing date of May 18. The ukase has struck the entire Russian official world with consternation. The ukase deprives all the ministers, governors and other high dignitaries of the power they have hitherto freely exercised of appointing and dismissing their official subordinates of all classes, and establishes under the czar's direct supervision the special committee of control which existed for a few years under Czar Nicholas. This reform will have two consequences. Favoritism in regard to promotions will be rendered impossible, and minor officials will be delighted to know that they cannot be discarded through the mere arbitrary caprice of their superiors."

News of political arrests come from every direction. The police have not been so active in years. About 200 students who were attending the St. Petersburg university have been either arrested or expelled from the institution, while all others are leaving the city in fear that their turn will come next. It is reported that thirty persons have already been banished to Siberia.

DIFFICULTIES OF M. DUPUY.

Indications Are That He Will Not Be Able to Form a Ministry.

PARIS, May 28.—M. Dupuy, who is trying to form a cabinet, continues his conferences with the men whom he desires to accept office in his proposed ministry. To-day President Carnot will have a conference with M. Boulanger, and if he still refuses to take the office proffered him M. Dupuy will abandon the task of forming a ministry.

Several meetings were held yesterday to celebrate the establishment of the commune. A number of socialist members of the chamber of deputies were present. Violent speeches were made, but there was no disorder. The program of the socialists included a visit to the Cemetery of Pere la Chaise, where many of those who lost their lives in the troublesome days of the commune are buried. The police, however, would allow none but those wearing wreaths to enter the cemetery and the making of speeches was forbidden.

Mr. Gladstone Getting Better.

LONDON, May 28.—Mr. Gladstone passed a good night. The eye on which the operation was performed is making satisfactory progress. Both of his eyes are still covered with shades, but Dr. Nettleship is confident that a cure is only a matter of time.

Six Miners Killed.

BRUSSELS, May 28.—An explosion occurred yesterday in a mine at Anderlues, killing six miners and injuring several others.

PROF. SMITH A HERETIC.

Gen Assembly's Verdict—Given Saturday.

SARATOGA, N. Y., May 28.—Prof. Smith is officially declared a heretic. The general assembly of the Presbyterian church, sitting as an ecclesiastical court, Saturday handed down its decision in the matter of the appeal of Rev. Dr. Henry Preserved Smith of Cincinnati, Ohio. By an overwhelming vote on the part of the conservatives this highest judicial body in the church affirmed the decision of the synod of Ohio affirming the judgment of the presbytery of Cincinnati, finding the appellant guilty of heresy. The commissioners did not conclude their three-minute arguments on the subject until 3:35 o'clock, up to which time 110 had spoken in opposition to Dr. Smith and fifty-three in favor of the appellant, while three had failed to declare themselves when the gavel fell.

Big Rock on the Track Causes Death.

PITTSBURG, Pa., May 28.—As the Baltimore and Ohio express No. 9, westbound, yesterday reached the sharp curve at Pine Grove station, nine miles this side of Meyersdale, a wreck occurred in which two men were killed and one was fatally injured.

SUPPLY OF GOLD EBBING AWAY.

Reserve in the National Treasury Low—Less Than \$80,000,000.

WASHINGTON, May 28.—The present depleted condition of the treasury and the discouraging outlook for the future are a source of considerable anxiety to the officials of the treasury department. Already the gold reserve, which had been brought up by the last bond issue to \$167,390,842, has been reduced by exportations since March 10 to less than \$80,000,000, with no indication that the foreign demand will cease until it has reached a much lower point. With the exception of the gold reserve and counting every available dollar in the vaults in the treasury the government to-day has less than \$80,000,000 with which to meet its obligations. Nor does the future show any signs of encouragement. On the contrary, the probable deficit of \$6,000,000 for the month of May is likely to be increased by \$15,000,000 during the two succeeding months.

The closest calculation that can now be made shows that the deficit for the fiscal year ending June 30 will be approximately \$74,500,000. Close estimates place the receipts for May at \$22,500,000 and the disbursements at \$28,500,000. For June the receipts are likely to be about \$24,000,000, with expenditures of \$26,000,000, making the total receipts for the fiscal year \$291,509,749, and the disbursements \$365,737,197. While it is confidently believed that the receipts for July will increase somewhat, yet it is much more certain that the disbursements will increase. A conservative estimate of the deficit for July is \$12,000,000, this increase being accounted for by the payment of many obligations, including about \$7,500,000 in interest that matures at the beginning of the fiscal year.

WASHINGTON, May 28.—The main interest in the proceedings in the senate this week centers in the prospective debate on the sugar schedule, which will probably be reached Tuesday. The consideration of the metal schedule having been conceded, the wood schedule is the only one standing before sugar. The principal debate on the wood schedule will be on the subject of lumber, which having been put on the free list when so many other articles of raw material are made dutiable, will arouse an animated discussion; but it is believed by the leaders on both sides of the senate that it will be possible to dispose of the entire wood schedule to-day.

It is also possible that the special committee which is investigating the alleged operations of the sugar trust in connection with the legislation may claim the attention of the senate for a part of the week. There is also a possibility of adjourning over Decoration day. The republican opponents of the bill will probably suggest this adjournment, but the democrats have not yet decided whether they will agree to the proposition.

Senator Jones has expressed the opinion that the sugar schedule could be disposed of in two days, but their opponents do not think it can be gotten out of the way in so short a time. Senators on both sides are looking forward to the voice on sugar with an interest that amounts almost to anxiety. If the committee amendments should be accepted the democrats expect to have smooth sailing on other portions of the bill until the income tax shall be reached, and are even hopeful that, with sugar disposed of, they will be able to get the opponents of the bill to name a day for taking the vote on the passage of the bill. The republican leaders say, however, that the bill is one which, from its nature, requires to be discussed by schedules, and that it would be difficult, for this reason, to agree upon a day for a vote and be sure that the considerations of the schedules would be completed by the time agreed upon. They say, however, they will be willing to confer with the democrats upon this proposition after the vote on sugar shall have been taken. They claim now, as they have claimed from the beginning, that they are not disposed to resort to any tactics for the delay of the bill, and most of them seem really willing now that the bill should be disposed of as soon as possible consistent with due attention to the various interests affected by the schedules not yet considered. After the sugar debate there probably will be no long speeches, unless they be made on the income tax.

The coming week in the house will be much broken up by special orders and adjournment over Decoration day. The state bank debate will have the right of way, but it can get but three days in the week at the best. To-day is District of Columbia day and the state bank men have consented not to infringe on that day. The bank bill will be taken up again Tuesday, when Representative Johnson will make the opening republican speech in opposition to state banks and Representative Cox will open for unconditional repeal of the state bank tax. Representatives Warner (New York), Walker (Mass.), Nayner (Md.), and Harter (Ohio) are also down for speeches, some of which will go over on account of Decoration day. The bank question will get another day, Thursday, to be displaced, however, Friday by private bills. The hopes of the state bank men are to close the debate and if possible get a vote before the week closes. The anti-option bill and the Indian appropriation bill are pressing for consideration, and one or the other of these will follow the state bank bill. It is hardly expected, however, that either of them can be reached during the coming week.

BANK WRECKERS FEEL THE LAW'S TOUCH.

VERDICT OF GUILTY RETURNED TODAY.

The Coffins and Reed Will Go to Prison for at Least Ten Years—Forty-Six Counts in the Indictment—President Haughey's Son Is Next.

INDIANAPOLIS, May 28.—The verdict of the jury in the bank wrecking case was opened this morning. It found the Coffins and Reed guilty. The jury does not fix the degree of punishment and it is conceded that whatever be the penalty for the Coffins it will not be less than ten years. There are forty-six counts in the indictment, and the evidence was strong for guilt on every count. President Theodore P. Haughey, who pleaded guilty before the Coffins were placed on trial, will probably not be sentenced until after the trial of his son, Schuyler Haughey, which does not come off until next month. The court entertains a kindly sympathy for President Haughey, and, while it is given out that he will not escape sentence altogether, his punishment will be the least possible under the statute, which would be five years.

BASEBALL REPORT.

Percentage of the Various Clubs in the National League.

The following table shows the number of games played and the positions of the clubs composing the National league up to to-day:

Clubs	Games Played	Won	Lost	Per Cent.

CLEW TO HIDING-PLACE.

United States Marshal Freeman Hopes Soon to Capture the Taylors.

MILON, Mo., May 28.—United States Marshal W. J. Freeman has found a clew which he thinks will lead to the capture of the Taylors in a short time. He says he is now confident that the fugitives are hiding near the scene of the murder and within easy access of their friends.

A man of the name of Phillips was seen coming home on horseback from the locality in which the Taylors are supposed to be hiding carrying a flour sack. The bag showed indications of having contained food. The posse threatened to hang Phillips but he would divulge no secrets. His house is being closely guarded by special deputies. Phillips was seen with the Taylors a few days before the murder.

FLOODS IN THE FAR WEST.

Towns and Farms in State of Washington Are Inundated.

SEATTLE, Wash., May 28.—The hot weather of the last few days has melted the snow and glutted all streams flowing into Puget sound. Skagit river is higher than for fourteen years and is still rising. At Mount Vernon business is suspended. The whole lower part of the town is flooded. Hamilton, Avon and Sterling are inundated and large sections of the Great Northern tracks are washed out. Practically all the farming land in Skagit county is under water.

A Manly Act.

Fannie—Did you hear about that mistake Hattie Brown made last night?

Clara—No. What was it?
Fannie—She thought Mr. Vincent was her brother, whom she hasn't seen for a year, and she threw herself into his arms right before everybody.

Clara—What a trying situation for Mr. Vincent.

Fannie—Yes; but he behaved like a man.

Clara—How?

Fannie—He kissed her.

Anthracite Mines Full of Water.

PHILADELPHIA, Pa., May 28.—The anthracite coal trade, like the bituminous trade, is at a standstill, though from different causes. The floods throughout the anthracite region have flooded many of the mines, forcing a suspension of work.

Will Aid Pullman Strikers.

CHICAGO, May 28.—Organized labor in Chicago has taken active steps to assist the suffering families of the Pullman strikers. It is expected that \$5,000 will be raised for this purpose by the Trade and Labor assembly and the Building Trades council.

EXPOSE OF VILAS
IN EVERY MOUTH.

SENSATION CREATED BY THE
CHICAGO TIMES.

The Charges It Made Have Been the
Sole Topic of Conversation Among
Local Politicians Ever Since Satur-
day—Prostitution of High Office
For Pelf.

There isn't a copy of Saturday's
Chicago Times to be had in Janesville.
Newsdealers have sent in orders for
extra copies. The attraction, of course
is the broadside attack upon Senator
William F. Vilas of this state, pre-
sented in one solid page of fine type,
what purports to be an expose of his
public and private career. The top
heading stretches clear across the
page it bears these words: "Expose of
the Career of William F. Vilas," and
the subheadings are as follows:

Wisconsin Senator and Ex-Cabi-
net Officer Shown to the Public
in His True Colors, Black
as Night.

How He Secures a Big Fortune by Fraud

Madison Fire Insurance Company Falls Into
His Claws and Its Treasury Is
Looted of \$150,000 by Him.

Ruthlessly Robs the Woodmen and
Indians.

Obtains Hundreds of Thousands of Dollars
by Stealing Vast Quantities of Val-
uable Pine Timber From the
Friendless, Poor and Un-
fortunate.

Prostitution of His High Position as a
Member of the Cabinet.

In another part of the paper is a
three-column picture of Senator Vilas,
with the following inscription: "On
page 9 of this issue will be found an
expose of the career of William F.
Vilas, who has perpetrated gross
frauds, in acquiring riches, prostitu-
ted his position as a cabinet officer,
betrayed his friends, and become a
democrat through the chance of the
dice box."

The very sensational article begins
with the following catechism:

Question: Who is the most unpopular man in
Madison? Answer: Bill Vilas.

Q. Who is the meanest man in Madison?

A. Bill Vilas.

Q. Who has betrayed every friend who trusted
him? A. Bill Vilas.

Q. Who got rich by wrecking the Madison
Mutual Insurance Company? A. Bill Vilas.

Q. Who added to his riches by robbing the
woodmen of their pine lands? A. Bill Vilas.

Q. Who prostituted his position as a cabinet
officer to still further increase these riches?

A. Bill Vilas.

Q. Who among men most resembles in per-
sonal characteristics the snake? A. Bill Vilas.

Q. Who is there in Wisconsin low enough to
be Bill Vilas' faithful little dog? A. Ed. Wall.

Then follows what purports to be
an outline biography of Senator Vilas
and his business, professional and po-
litical career. As a preface is the
statement that the practical leaders of
the Wisconsin democracy are Senator
Vilas and E. C. Wall, and the purpose
of the expose, it says, is to permit
democrats to determine whether a con-
tinuance of these men in power is wise.
After briefly sketching the life of Sen-
ator Vilas up to about 1871, the
article gives what purports to be
a history of the founding and
failure of the Madison Mutual
Insurance company, accusing Senator
Vilas with others of stepping in at the
death and appropriating and dividing
among themselves who were directors
of that company \$150,000 belonging to
the policy holders of which amount
Senator Vilas received \$40,000 as his
share of the plunder.

The next chapter is devoted to an
account of how Senator Vilas decided
his politics with the dice box. After
referring to his disappointment over
the defeat of General Hancock and
the discouraging prospects of his ever
standing a chance for political prefer-
ence in the democratic party, the ac-
count thus proceeds:

After the November election he told his partner,
General Bryant, that he saw no future for
the democratic party.

"I've a good mind to quit it," said he.

"Why don't you?" replied his partner, who
was a republican.

"I'll shake dice with you to see whether I be-
come a republican or you a democrat," said
Vilas.

The proposition was agreed to and a dice box
procured. The game was fought on the office
table, Vilas having the first throw. He turned
out a pair of sixes.

"The democrats ain't in it," shouted Bryant
gleefully, as three aces rolled out of the box.

"Well, I don't care much one way or the
other," continued Vilas as he took the box. The
next two throws went in his favor and he con-
tinued a democrat.

The account goes on to recount how
Vilas secured Grover Cleveland's at-
tention as chairman of the Chicago
convention which nominated him and
his appointment in the latter's cabin-
et; his treachery to General Bragg,
and tells about the mean political
things he has done ever since he be-
came the virtual dictator of the Wis-
consin democracy.

The third and last chapter of two
and a half columns is devoted to Sen-
ator Vilas' alleged pine land stealings
in company with Colonel John H.
Knight, while the latter was register
of Bayfield land office. This expose is
along the same lines and follows
closely The Milwaukee Sentinel's ex-
pose of this famous jobbery pub-
lished during the last sen-
atorial contest before the
legislature. Accompanying this
account are printed fac similes of cer-
tificates of land entries in the name of
W. F. Vilas and signed by Knight as
register of the land office while the
two were partners, which entries
were contrary to law. These lands,
as well as much more, it is alleged,
were virtually stolen from the wood-
men who had looked them up, by
Knight entering them in Vilas' name
after the woodmen had applied to en-
ter them as valuable pine lands. The
article alleges that Vilas thus acquired
\$200,000 which rightfully belonged to
others. Other pine stealings on Indian
reservations are also charged to the

senator in graphic description, and a
full expose is given to Vilas' suppres-
sion of a special report to the depart-
ment of the frauds his agents had
committed in his behalf. Continuing,
the article says:

As soon as Vilas heard the report he hurried
to Spooner and Sawyer.

"Great God! said he to the latter. "If this
report is published I'm ruined. Can't you have
it suppressed? My term is out in a few weeks.
Suppress it for the sake of my family, if not for
me."

Spooner was approached with the same ap-
peal. The two Wisconsin senators, rather than
to have such a disgraceful scandal fall upon
their state, agreed to help Vilas and suc-
ceeded in getting the report squelched.

Such are the acts and character of the man,
William F. Vilas.

Do the democrats of Wisconsin wish to con-
tinue him as the leader of their party in a year
when they have but a fighting chance of vic-
tory.

FINGER OF A STATUE DUG UP.

Mysterious Find Near Dr. George Bedford's
Home—Who Lost the Piece.

EDITOR GAZETTE:—There are a few
inaccuracies in your account of the
stone finger found by me in the gravel
bed near Dr. Bedford's residence. The
finger indicates that it was made by
man but of what substance is uncer-
tain. It somewhat resembles blasie,
but seen through the microscope has
the appearance of marble. How did
it get where found. This is the prob-
lem. Also what is it part of, and
where is the remainder of the statue?
No one in that neighborhood knew of
any one ever having a statue or
hand that the finger could be
life size and of exquisite workman-
ship and beauty.

Had it been accidentally broken off
a statue, the owner would undoubt-
edly have kept it to have it replaced
in position, as that could have been
done far easier than to have a new
finger made.

Is it part of a new Venus de Milo
buried somewhere in the vicinity of
Janesville, or a portion of some image
brought to this country by early
French explorers? Or does some re-
spected resident mourn its loss?

The writer would like to hear of any
news on the subject. Respectfully,

Three Good Games This Week.

Manager McGinley has arranged
three red-hot games for this week.

Wednesday morning and Wednesday
afternoon the Whittings, Chicago's cele-
brated city league team will play.

Thursday afternoon the Wisconsin
University nine will play. The uni-
versity nine were never in better
shape than this year. Their catcher
this year is declared by Tom Morrissey
who is coaching them, to be better
than any man in the Northwestern
Association. The entire infield is said

ger. Nobody knows how the game
ended as the Badgers made so many
runs the tally stick gave out.

The Janesville Lightweights and
the Monterey Unions played at Ath-
letic park Sunday morning at 9 o'clock
for a cash purse. Lightweights won
by a score of 34 to 23.

Quite a crowd of spectators gath-

yesterday morning, to witness the
game between the East Ends and
Griswold's nine. The East Ends
gained an easy victory the score be-
ing 13 to 8.

There is believed to be but one file
of Harper's weekly from 1861 to 1865
in the city. It is not for sale, but
book dealers in this city say that a
file of the weekly during the war is
now worth \$100. In 1870 the plates
were destroyed and it went out of
print. Over 1,000 of the best of these
illustrations are used in Harper's war
book, some being double page, and by
Thomas Nast and other famous artists,
right on the field. There are over
300 portraits of distinguished soldiers
and statesmen, nearly 100 maps, plans
and sketches of battle fields, nearly
600 pictures of sieges, battles, charges,
prisons, vessels of war, naval engage-
ments, etc.

The Yellow Glow of the Horizon.

Painted on the sky by the setting sun, is beau-
tiful. Not so the yellow glow of a face tinged
with bile. And oh! the unspeakable discom-
fort that hie in the wrong place produces.
Twinges in the right side and under the right
shoulder blade, nausea, vertigo, sick headache,
constipation, faulty digestion. Not in an in-
stant can the symptoms of biliousness be dis-
pelled, but persistence in the use of Hostetter's
Stomach Bitters will eradicate them, restore
digestion and regularity of the bowels, and
counteracts tendencies to more aggravated
complaints, which an interruption of these
functions begets. Rheumatism, inactivity of
the kidneys and bladder, neuralgia, and in-
ability to sleep, are also remedied by this gen-
eral preventive and restorative of nerve force and
tranquility. As an antidote to the poison of
malaria, it is unfailing and prompt. A wine-
glassful three times a day.

BORT, BAILEY & COMPANY.

We will explain and we will not "wishy washy" the matter neither. Knowing that some of our competitors are trying to influence the people by offering inferior stuff in direct competition with our first class articles, we want to put our friends directly into knowledge of the fact.

FIRST—You want to understand the French Satine Dea "Kecklins" French Satines have cost all this spring 20c at wholesale and every store in this country sold them at 25c. "Windsor" Satines American goods have cost all this spring 9½c and every fair merchant in the land has asked 12 1-2c for them.

Now our competitors have been advertising these Windsor satines that cost them 9 1-2c at 15c per yard and telling the people they were French goods. In order to make our promises good we have knocked the price on the "Kecklin's" goods to 12 1-2c. A friend of ours brought us 10 yards of our competitors' goods and we have got it to compare with ours; they are no more alike than darkness and daylight. We shall continue selling

"Kecklin's" Genuine French Goods 12½c

and when our case of "American Windsors" (our competitors French goods) arrive in a few days we shall put them at a price that will astonish them and you and everybody.

Our White Shaker Flannel is finer and softer and three inches wider and we beat all competitors on those points and then sell them at 2 1-4c per yd.

Our Dress Gingham we will sell 10 yds to a person at 3 1-4c per yard.

The 6 1-4 Tennis Flannels we have been selling are finer, softer, wider and altogether better stuff are now 5 1-2c, and we have forty new pieces to show you.

We will do what we say, beat any prices made by any one. We can afford to do it because we owe no man a dollar. We buy for cash, we sell for cash and we want to "grow a little."

STRANGE DISCOVERY.

Balzac's Dressing Gown in the Wardrobe of the King of Dahomey.

Unlooked-for things have been found in unlikely places, but there has probably been no discovery more remarkable than that of Balzac's dressing gown in possession of the king of Dahomey. Monarchs are rarely literary, and his dusky majesty, one would think, was the very last of them to have set much value upon the personal relic of a novelist, however distinguished. Nevertheless, the French found it in the royal apartment at Abomey. There were some ingenious theories founded upon this circumstance. One of the amazons, it was thought, might have been a novel reader, and had sent to Paris to secure the interesting memento, and, on the affair coming to the knowledge of her sovereign, had hastened to say she had purchased it for his own shoulders. For, indeed, he always wore it upon state occasions. It was not a dressing gown, such as literary persons in this country are wont to wear, of second-class flannel worn at the edges, but of purple velvet embroidered with gold. As a matter of fact, it had been given to Balzac by some of his admirers and after his death had been bought by a dealer in curiosities, who had placed it, with other showy articles, on the West African market. It is sad to think how a plain tale will "put down"—that is, destroy the materials of a fine romance.

A GOLD FISH.

A Beautiful Specimen of the Japanese Papraka Recently Caught.

G. A. Guinand, of the Nadeau hotel, San Francisco, was fishing at Santa Monica when he caught what at first sight appeared to be a solid lump of gold. When the prize was safely landed it proved to be a specimen of the Japanese fish known as the papraka, and by experts it is said to be the first of its kind ever caught on that coast.

The fish is a beautiful creature, being exactly the color of burnished gold and of graceful contour. It is about nine inches in length, five inches in width and about one and a half inches thick. The head is short and the mouth small, but full of rows of sharp frontal teeth. The dorsal fin is of short length, but is sharply serrated, and continues along the back, ending in a larger fin, which, in connection with a corresponding one underneath the body and the tail, gives it the appearance of a three-tailed fish.

A remarkable feature of this beautiful fish is that it is furnished with two distinct sets of gills. The eyes are prominent and bright yellow in color.

"I OWE MY LIFE TO YOU."

A Wilton, N. J., Girl's Experience With a Noted Massachusetts Woman.

[SPECIAL TO OUR LADY READERS.]

Life is never more precious than in the heyday of youth, when every dream is a promise, and every thought an inspiration.

It is natural that Miss Gertrude Sickler, a young lady who lives at Wilton, N. J., is grateful for the great boon of life.

She suffered terribly with suppressed and painful menstruations. The doctors could only prevent her from having fits each month by dosing her with morphine.

At last, when she was completely prostrated, her father got her a bottle of Lydia E. Pinkham's Vegetable Compound, which at once gave her relief.

That did what the doctors could not do. It cured her. She has no trouble now, and no dread of the coming month. "I owe my life to you," she writes to Mrs. Pinkham. "Oh, if other suffering women could try your valuable medicine they would bless you as I do."

THIS DAY IN HISTORY

1309—James Sforza, the great founder of the noted Italian family, born; died 1421.

1660—George I of England born, a comparatively obscure German princeling, son of the Elector of Hanover, at Osnaburg; died near there 1727; king of England 1714.

1681—Caldron de la Barca, Spanish dramatist, died; born 1604.

1807—Louis John Rudolph Agassiz, naturalist and geologist, born in Motier, Switzerland; died 1873.

1809—George Muirson Totten, engineer, who devoted 25 years to Aspinall's Panama railroad, born in New Haven; died 1884.

1829—Sir Humphry Davy, famous English chemist, died; born 1778.

1843—Noah Webster, American lexicographer, died in New Haven; born at West Hartford, Conn., 1758.

1860—143 wrecks in a storm on the English coast; one fishing fleet completely destroyed, carrying 186 men.

1878—Lord John Russell (Earl Russell), noted member of the British parliament from 1841 to 1861 and twice prime minister of England, died near London; born 1792.

1891—Judge Samuel Miller Breckinridge, a prominent lawyer and well known Presbyterian, died suddenly at Detroit while addressing the general assembly; born 1838.

1892—Great floods in Arkansas, Louisiana and Mississippi.

SYMPATHY STRIKES.

There is no theory of justice or propriety upon which the sympathy strike can be defended. It amounts to saying that laborers in one part of the country who are entirely satisfied with the conditions of their employment must manifest their sympathy with dissatisfied and striking laborers in another part of the country by abruptly discontinuing their service. There could not be a clearer case of deliberate and flagrant wrong-doing. It implies the infliction of injury upon employers who have done nothing to provoke such treatment, and who are in no sense responsible in the slightest degree for the actions of their employees. Furthermore, it means, as in the present instance, severe damage to the public in the confusion of business and the withholding of necessary supplies.

BY A JURY OF THREE.

A modification of the jury system is to be tried in Ohio. The recent legislature passed a bill providing that in Cuyahoga county, in which Cleveland is situated, all civil cases involving less than \$300, in the case of common pleas, shall be tried by three jurors instead of twelve, unless notice be given at the opening of the term and \$5 deposited toward the expense of a full jury trial. The object is to dispose more rapidly of cases of slight importance. If the litigant wants a jury of twelve he can have it on easy terms, but it is more than probable he will choose the other alternative and reduce the chances of the law's delay.

Talk about Mr. Cleveland's "vigorous American policy!"

The Samoan Islands are on a direct line between San Francisco and Australia, marking the second third of the voyage, as the Sandwich Islands mark the first third. England and Germany have seized all the harbors in this region of the Pacific except those of Samoa and the Sandwich Islands, and, of course, are eager to absorb the few in which the United States has maintained an interest. And still the administration keeps on playing the British and German game.

We hear a good deal from democratic statesmen about opposition to an increase of the bonded indebtedness of the government, but they could do nothing to relieve Secretary Carlisle of the necessity of resorting to such an expedient in order to meet the increasing deficit which denotes democratic rule.

The tariff debate will accomplish one thing—it will McKinleyize certain features of the pending bill by appealing to the self-interest of democratic senators who can not be reelected if they antagonize the protected industries of their respective states.

"The worst tariff possible for the country," says a merchant, "is an unsettled tariff." In other words, the doubt about what is going to be done causes more harm than could result from any system of duties.

It is a misdemeanor for a man to succeed in business, and a penalty must be provided for such conduct. That is the sum and substance of the income tax.

AS VIEWED BY JERE MURPHY

There is a suspicion heretofore that a canvass of the weather department would show large prohibition party gains.

The New York stock market was

stronger Saturday, probably in sympathy with the United States senate.

Probably the best that can be expected by Chicago now is that Assassin Pendergast may be punished for contempt of court.

Just as long as Chairman Wall remains in York state, the third term movement of the roster jobbers will remain in the state of doubt.

Under the deft manipulation of appointments by Governor Altgeld the public park system of Chicago will ultimately become as useful to the democratic party as a third-class saloon.

The Chicago Inter Ocean tells of a clergyman at Kokomo, Ind., who has been sixty years in the ministry, and during that time has married 1,200 people. This shades Lillian Russell's record somewhat.—Madison Journal.

Paying the Penalty.

Mr. Workhard—My dear, I have lost my situation, and it just happens that I haven't a dollar ahead. We must go to the poor house for dinner.

Mrs. W.—Surely some of the grocers with whom we have dealt for so many years will trust us?

Mr. W. (sadly)—No, I have no credit anywhere. I always paid cash.—N. Y. Weekly.

He Knew His Business.

Proprietor (of the shoe store)—Before I take you into my employ as clerk let me ask you one question: What do you know about the No. 2 size of ladies' shoes?

Applicant (promptly)—There are seventeen sizes of No. 2 shoes.

Proprietor—Engaged!—Chicago Record.

Either Will Do.

"So you are determined on a journey to the north pole?"

"I am."

"Going out with the next expedition?"

"No; I shall go out with the party that is to rescue the next expedition."—N. Y. Press.

Truth Triumphant.

Mrs. Gadders—What do you think of my new onyx clock?

Visitor—Beautiful! Is it an alarm clock?

Willy Gadders—Yes—

Mrs. Gadders—Willy, Willy! How dare you tell such an untruth?

Willy Gadders—Well, if you had seen how it alarmed Pop when he got the bill, you would say it was.—Puck.

What He Is Hired For.

"There is a man who figures prominently in our business," said Snaggs, who was showing his friend Gaswell through the establishment.

"The man with the pen behind his ear?" asked Gaswell.

"Yes."

"Is he one of the partners?"

"No; he is the bookkeeper."—Pittsburgh Chronicle.

He Knew the Cigars.

"You're wrong," said the husband.

"I'm right," maintained the wife; "and I'll bet that I am."

"What will you bet?" he asked.

"I'll bet you a box of cigars," was the reply.

"I beg your pardon," said the husband, hastily. "I was mistaken. You are right and I am wrong."—Town Topics.

From the German.

Sergeant—You are the most stupid soldier in the whole regiment. Have you any brothers?

Recruit—Yes; I have a brother.

"Is he as stupid as you?"

"Yes, and a great deal more."

"Impossible. What does the donkey do for a living?"

"He is a sergeant."

Strength in Numbers.

Bingo—I've got to have a drink, old man. Won't you step into my house and join me?

Kingley—But your wife's there, isn't she?

Bingo—Yes. That's why I am so anxious to have you along.—N. Y. World.

Why Brown Didn't Know Him.

Brown—I can't lend you a dollar. I don't know you.

Stranger—What, you don't know me? Why, my name is continually in the papers.

Brown—Maybe so, but I never read the police reports.—Alex Sweet, in Texas Siftings.

A New Game.

Jersey Boy (loudly)—Hurry up, Jim, and call him a thief before he calls you one.

Shocked Mother—Johnny! Johnny! What are you boys doing out there?

Johnny—We are playing legislature.—Good News.

He Kept the Show Running.

Museum Manager—What has become of my diamonds? I left them on my desk here when I went out.

Assistant—We ran out of glass and had to feed them to the glass-eater to keep the show goin'.—Town Topics.

Insuring Live Stock.

Horses have often been insured and so, too, have prize cattle and dogs, but the boxing kangaroo at the Westminster Aquarium, in London, is probably the first of its kind in whose name a policy has been taken out. While the directors of that institution offered no objection to the payment of the premium for the kangaroo, they absolutely declined, as a superfluous expense, to defray the cost of insurance upon the lives of the divers who constitute some of the side features of the show.

Our elegant line of negligee shirts. You should see them, at 50 cents and upwards. Some dealers ask 75 cents for what we sell at half a dollar.

TOO MUCH WIND

Is being wasted by our competitors, who lead in everything (Fairy tales not excepted) as to the immense amount of business that they are doing—on paper mostly—by selling their wares less than cost.

Merchandise that must be sold for less than the cost to manufacture must be exceeding poor or of such an antique date that any price is gain.

We do not have that kind of goods in our place. We are making up many suits—busy all of the time and making some profit—the reason is that our customers get honest value for their money—any who have ever dealt with us can verify the above.

IN HATS

We always were in advance on new things—selling so many keeps our stock bright and clean. If we would let the old timers accumulate we would gladly take 50 cents on the dollar for them. Our new straws are in and are charming. Some beauties at 50 cents. One price to all and everything marked in plain English figures. Yours, Etc.

SERMON FOR VETS BY REV. J. D. COLE.

GRAND ARMY MEN ATTEND CHURCH IN A BODY.

Bishop Isaac L. Nicholson Conducts Confirmation Services at Christ and Trinity Churches—New Officers for the Men's Sunday Evening Club—Three Candidates Baptized.

Wholly in keeping with the day were the decorations at the First M. E. church yesterday. When fifty-six veterans from W. H. Sargent Post and thirty Relief Corps ladies filed in they faced a pulpit festooned with flags and backed by an expanse of bunting. There were pictures too—Washington's picture surmounted by a wreath and battle portraits of Grant and Lincoln. The pulpit was set in a floral bower. Rev. Mr. Cole's sermon was as much to those who knew not the sounds of war as to the veterans.

"It is true, friends, that flower strewn graves can do nothing for the dead soldier," he said, "but to the living they are full of encouragement and in the hearts of the young they develop patriotism. It is a custom, that is born too, of gratitude, grateful to the sacrifice that was made in the interest of humanity and patriotism."

The speaker said he would be glad to see the rifle or the saber with which the father fought handed down to the son, but this could not be done. Instead then sentiment should be crystallized in granite and marble. An eloquent recital of some of the acts of bravery brought out by the war followed.

The singing was by a male quartette, music appropriate to the occasion being chosen. Every seat in the church was filled and many sat in the aisles.

Bishop Nicholson's Visit.

Two large churches were confirmed yesterday by Bishop I. L. Nicholson. Services were held at Christ church in the morning and in the evening both churches united at Trinity. Long before the appointed hour Trinity's seating capacity was taxed to its utmost, to provide room for the large congregation which assembled to witness the confirmation services, and soon the adjoining chapel was filled and the grounds outside crowded to the sidewalks. At 7:30 the long line of vested chorists preceded by the crucifer, entered singing the processional hymn "Jerusalem the Golden."

They were followed by the Rev. W. H. Wotton and Rev. A. H. Barrington, of Christ church, and the Right Rev. I. L. Nicholson, D. D., bishop of Milwaukee. Evening prayer was read by the rector, assisted by Mr. Barrington. During the singing of the hymn "My Faith Looks Up to Thee," the candidates for confirmation, seventeen in number, presented themselves at the altar, and the confirmation service was begun. In a short address to the newly confirmed, the bishop likened them to those who in building had just laid a beautiful foundation, and urged them to continue according to the beginning which they had made.

The sermon was preached by the bishop, and was a masterly exposition of the text, "When Thou hadst overcome the sharpness of death Thou didst open the kingdom of heaven to all believers." At the close of the service the clergy and choir passed out singing the recessional hymn, "Come Thou Almighty King." The singing was exceptionally good and the sermon very strong.

Other Church Services.

There were three candidates for baptism presented at the Baptist church last night. The attendance was large.

Objectionable tendencies in modern sports were reviewed by Rev. J. D. Cole last night, he finding much to criticize in the latter-day developments. Another sermon on the same subject will be preached next Sunday.

John M. Whitehead filled the Congregational pulpit last evening and gave an address on the work of the Men's Sunday Evening club. After the service there was a business meeting of the club and these officers were elected:

President—J. M. Whitehead.
Vice President—James Sutherland.
Secretary—Frank Irish.
Treasurer—W. T. Mayhew.

A Beautiful Hand.

S. F. B. Morse, the inventor of the telegraph, had beautiful hands, a fact that caught the attention of Benjamin West while Morse was yet an art student. It was Morse's hand that furnished West the model for the hand of Christ in one of West's most famous compositions, and it is said that West had the hardihood to say to Morse that he might henceforth assert that he had a hand in the picture.

In Holland.

When a child is dying, the people of some parts of Holland are accustomed to shade it by curtains from the parents' gaze, the soul being supposed to linger in the body so long as a compassionate eye is fixed upon it. Thus, in Germany, he who sheds a tear in leaning over an expiring friend, and does not wipe it off, enhances, they consider, the difficulties of death's last struggle.

Red Parasols.

It is said that a red parasol destroys in a great measure the actinic power of the sun and must, therefore, keep the skin from freckles. Photographers long ago availed themselves of this peculiarity of light transmitted through a red medium, and it seems reasonable to suppose that a red shade might protect the complexion.

GIVES TROUSERS TO THE POOR

Leo Mayer Will Give Away His Smoke-Damaged Goods.

Leo Mayer is doing a good thing for the needy poor. Last week his stock of ready made clothing was considerably damaged by fire. The stock was insured, Mr. Mayer getting his insurance. He now invites the needy poor to call at his store and take their pick of the ready made trousers damaged by fire. Many pairs of these pants are very little damaged and will be given away free.

C. L. CLARK TO PRACTICE HERE.

Will Again Appear at the Rock County Bar—Seeking Office Quarters.

Clarence L. Clark has practically given up his idea of returning to Milwaukee. His friends say that he will engage in the practice of law in this city. He is now looking for office quarters and is understood to be seeking rooms as near as possible to his old location in the Bennett block, when the firm was Hyzer & Clark.

DAILY RECORD OF DEATH.

Mrs. Bridget O'Connors.

Mrs. Bridget O'Connors died at the home of her parents, Mr. and Mrs. John Nash, Adams street, Sunday evening at 8:30 o'clock, of heart failure, aged twenty years and seven months. Mrs. O'Connors was married last December, being taken sick immediately after her wedding and has been confined to her home ever since. Besides her husband she leaves a father, mother, four sisters and three brothers. Funeral services will be held at St. Patrick's church at 9 o'clock Wednesday morning.

Funeral of Frances J. Allen.

The remains of Miss Frances J. Allen were laid in Oak Hill Sunday afternoon. Funeral services were held at the home on North Main street at 2 o'clock, conducted by Rev. J. D. Cole of the First M. E. church, assisted in the song service by the church choir. There was a large number of friends, and a number of beautiful floral offerings were placed upon the casket. Miss Allen was a member of the First Methodist church, having dedicated her life to her Saviour when quite young. For some years previous to her illness she was an employee in the Eagle box factory, and many of the employees of that establishment attended her funeral. Realizing that her parting with kinsmen and friends was drawing nigh, she made every preparation for the end, and when the time did come she passed quietly and peacefully away. The pall bearers, who were named by her a few days before the end, were: Roscoe Sherwood, George Robinson, Edward Miller, Crist. Burbeck, John Boyes, Otto Buchholz.

Stick to the Truth, Gentlemen.

Certain try-to-be-competitors of ours we notice have misconstrued our announcement regarding satines. They seem to have stepped on themselves just a little. If they will have some intelligent person read our "ad" to them they will find that we have said nothing whatever about selling French satines for 12 cents. We are, however, selling French satines at 15 cents—not goods that have laid in stock all the season, remnants, etc., but bright, clean, fresh new goods. They did not cost us 20 cents a yard, either, or 15 cents. We are not losing money on them, but making a fair, living profit and benefiting hundreds of people. The way we can do it is this: We are members of the New York Dry Goods Exchange, a syndicate composed of seventy-five to one hundred of the leading, pushing dry goods merchants throughout the United States. Only one house in any city can join the exchange, and that must be the leading concern. The exchange headquarters is in New York, at 78 Walker street. It has its president, secretary, treasurer, manager and buyers, who are ever on the alert for bargains and inclose touch with all first hands. If there is a good thing in the market they know it, and through the exchange's reporting system its members are kept daily informed as to its movements. It represents a capital of ten to twenty millions, so large that manufacturers cannot ignore it. The exchange from the outset invited only the largest merchants to become members, large handlers of merchandise and merchants whose financial standing was all-much as they can go to market and buy fifty thousand dollars worth of goods and no questions asked. After reading the above you can better appreciate our position as regards buying. Our trying-to-be-competitors advertise that they want to grow a little. There is certainly a great chance for them to grow a big lot in order to approach the Big Store. Just to make things lively we will sell Shaker Flannel while at 2 1/2 cents, plaid dress gingham, 3 1/2 cents.

BURT FOUND GUILTY OF HORSE STEALING

CONVICTED OF A CRIME COMMITTED 13 YEARS AGO.

Jury Out Only Thirteen Minutes Before Bringing in a Verdict—Frank Baldwin's Trial on the Charge of Murder Begun at 10 O'clock—Special Verdict.

Sheriff Bear and his deputies are now scouring the country, picking up the seventy-five special jurors for the Baldwin murder case. The case was called at 10 o'clock and after the regular jury panel was exhausted a special venire was issued and the court took a recess until that hour.

Only thirteen minutes' time was consumed by the circuit court jury this morning in agreeing that Edwin Burt stole old Barney Radigan's mare and colt in 1881 Burt was remanded to jail to await sentence, which will probably not be pronounced until the end of the criminal calendar.

Burt has lived in Rockford for years and has been considered an honest man and a reputable citizen. He wept as he told his story in the witness box. He said he came to Janesville thirteen years ago with a young lady from Wichita, Kansas, whom he expected to marry. A brother to his bride elect and another young lady were also of the party. They put up at the Franklin House. During the day he says he purchased the horse which he is accused of stealing from someone at the hotel barn, paying \$80. He said he sold the horse the same day to a horse buyer by the name of Kibbee, who was buying up horses for Berry & Co., of Chicago. Kibbee agreed to pay him \$95 for the horse; he paid him \$5.00 and was to give him the balance that afternoon at 2 o'clock. In the meantime a dispatch was received from Wichita to the effect that the mother of Burt's intended wife, who was not in good health when they left Kansas, was much worse. This news broke the girl up and she wanted to go home. The quartette went back to Kansas and Burt gave his fifteen-year old brother, who resided in Green county, an order to get the \$90 due him on the horse, which he did. The horse was traced to Chicago and afterward by the owner and Burt's parents were obliged to give up the \$90. Burt says that he never saw Barney Radigan, the owner of the horse, until he saw him in the municipal court in this city and that he never worked for him and was never employed on a farm near Clinton.

PRAISE THE SHAW
 FOR MANY MERITS.

FAMOUS PIANISTS PRAISE THE
 GAZETTE PRIZE.

Everybody Who Has Examined the
 Instrument at S. C. Burnham &
 Co's Says the Things Said in Its
 Favor Were Justified—Conditions
 of the Contest.

What is thought of the Shaw piano
 by pianists, vocalists and teachers.
 This is not hard to find out.

When The Gazette chose an instru-
 ment it picked out the best to be had.
 The girl who wins this instrument
 may well rejoice. Here are a few
 statements published in St. Paul
 papers by those who have used the
 Shaw:

OSCAR L. Lienau, tenor singer and
 teacher of the voice writes:
 ST. PAUL, MINN., AGC. 2, 1892. GENTLEMEN:
 I am extremely pleased with the Shaw Piano,
 which I purchased of you. I have used it for
 some months and consider it a superior instru-
 ment. Its clear tone and elastic touch is a
 delight only to myself, but to my many
 friends, its sweet singing quality being espe-
 cially noticeable, and I shall be pleased to recom-
 mend it to my pupils, etc., I am, yours respect-
 fully,
 OSCAR L. LIENAU.

Frederick Leavitt, the expert piano
 tuner:

ST. PAUL, MINN., MAY 1, 1892. GENTLE-
 MEN:—As compared with other first class in-
 struments, the Shaw piano has the charming
 characteristics of each—all in one. Not a break
 in the scale. No rattling in the action. Never
 harsh or metallic in tone. Always in tune. Such
 is my admiration for the piano that I would not
 trade, "even up" for any upright made. My
 own Shaw has not required any attention dur-
 ing the past year and is in almost perfect tune
 now. Yours respectfully, FRED. LEAVITT.

Professor William Manner, organ-
 ist at the Cathedral and leader of the
 German Mannerchor Singing society
 says:

ST. PAUL, MINN., MAY 6, 1892. I admire the
 Shaw Piano very much. Their construction is
 most excellent, the tone is round, rich and mel-
 low, and altogether I consider them one of the
 very best pianos made today in this country. I
 can cheerfully recommend them. Respectfully
 yours,
 W. MANNER.

Those who wish to learn for them-
 selves the quality of piano offered by
 the Gazette are urged to visit S. C.
 Burnham & Co's store. Several
 patterns of the Shaw are
 there shown. These instruments
 rank in the markets of the country
 just as Chickering's, Steinways and
 Knabes, the four occupying first place.
 Everybody who has seen the Ga-
 zette piano is enthusiastic in its
 praise. It has a pure ringing tone,
 and its action is very fine. These
 qualities are what would be expected
 of a Shaw piano and The Gazette
 made no mistake in choosing that in-
 strument.

Friends of contestants show a
 lively interest in the success of
 their favorites and votes are
 coming in rapidly. New subscribers
 should be reported as fast as secured,
 but coupons should be tied in bundles
 of one hundred each and kept until
 the day the competition closes. Votes
 have been cast up to date, for the fol-
 lowing candidates:

- Ainslie Tina.
- Baker, Bessie
- Baldwin, L. M.
- Campbell, Nellie Ruth
- Clifford, Alice M.
- Day, Edith.
- Eldredge, Rose B.
- Ennis, Mary
- Frink, May
- Foster, Lahlie
- Gifford, Alice V.
- Gibbs, Maria J.
- Holt, Ellen
- Huggett, Miss Olive.
- Hayward, Minnie
- Kenyon, Cora
- Kastner, Alice
- Loucks, Franc
- McCarthy, Maggie
- McNeil, Anna
- Nichols, Ida
- Peters, Nellie
- Pease, Bashie K.
- Randall, Carrie M.
- Wright, Ada V.

Names of other candidates will be
 added as fast as votes are received.
 Only bona fide candidates will be al-
 lowed. The rule that nobody is per-
 mitted to enter merely to represent an
 organized society will be strictly en-
 forced.

From now until the contest closes a
 coupon will be printed in each issue of
 the Gazette.

1. Any one, anywhere in any state
 is entitled to vote as often as they buy
 a copy of The Janesville Gazette con-
 taining the above ballot.

2. Cut the ballot out (trimming o
 the dotted lines.) Write in the name of
 your candidate and enclose same in
 an envelope addressed to Bailot Edi-
 tor, Gazette, Janesville, Wis.

3. Only one person can be voted for
 on one ballot.

4. The lady who receives the largest
 number of votes will receive as good
 and beautiful a piano as the Shaw
 Piano Company can make.

5. The contest will close June 30,
 1894. Piano will be delivered as
 soon as the counting of votes is com-
 pleted.

6. Any person who will bring The
 Gazette one new subscriber paid in ad-
 vance will be entitled to the follow-
 ing number of ballots:

- New subscriber paid in advance one
month, 100 votes.
- New subscriber paid in advance two
months, 250 votes.
- New subscriber paid in advance six
month, 900 votes.
- New subscriber paid in advance one
year, 2,000 votes.

Each new subscriber who pays in
 advance and casts the number of votes
 specified is also entitled, of course, to
 cut coupons from the paper
 from day to day and vote in the
 regular manner.

No person will be allowed extra

votes for stopping his paper and hav-
 ing it sent to another name at the
 same address.

In every instance they must be bona
 fide new subscribers.

We will be square with you, you
 must be square with us. No person
 will be allowed to stop his paper on
 Monday and start it again Tuesday
 and claim the premium offered.

The polls will close at 9:00 p. m.,
 June 30, but votes handed in before
 this will be duly credited. The con-
 test will be conducted strictly "on
 the square." No partiality or unfair
 advantage will be taken or allowed in
 any case.

INNOVATIONS.

The appointment of a negro sing-
 er to the choir of St. George's
 church in New York has been spoken
 of as the first instance of the sort, but
 it appears that the vested choir of the
 church of the Holy Trinity of Middle-
 town, Conn., has had two negro boys as
 members for two years past.

In Tioga county, Pa., there is a
 farmer with such a love for melody
 that he has rigged up a music box on
 the order of a hand organ, which he
 has attached to his wheel plow. The
 gearing is so fixed that by moving a
 lever the organ is played automatical-
 ly, and the farmer regales himself
 with all the popular operatic airs
 while in the field.

A fire engine was recently the
 means of putting a sudden stop to a
 duel in Germany. Two physicians
 quarreled and arranged for a meet-
 ing with pistols. The village chief
 magistrate heard of the proposed
 duel. He informed the firemen, and
 together, drawing a machine, they
 proceeded to the place where the en-
 counter was to take place. Just as
 the seconds had stepped off the dis-
 tance a heavy stream of water struck
 one of the physicians. A moment
 later the second doctor was drenched
 to the skin also. The would-be fight-
 ers in their dripping clothes looked so
 ridiculous that they both burst out
 laughing, shook hands and returned
 to their homes, thanking the mayor
 for his intervention.

ANIMAL LIFE.

So many sparrows have been killed
 at shooting matches in Bucks county,
 Pa., that the farmers expect to be
 largely rid of the little pests.

A sow on the farm of Richard Col-
 lyer at Woodbury, Long island, is
 said to have given birth to twenty-
 four pigs in the past month. The
 pigs were born in two litters and are
 claimed to be sound and healthy.

Massachusetts has spent \$500,000 in
 efforts to exterminate the English
 sparrow, and when the resolution was
 introduced in the senate the other
 day to provide for the propagation of
 the Mongolian pheasant in the com-
 monwealth the members displayed
 much caution and asked many ques-
 tions before voting.

George Diefenback of Louisville has
 a game hen from County Galway, Ire-
 land, that is better than a rat terrier.
 The other morning a large rat tried
 to get at the hen's nest. Instantly
 the hen was all feathers. When the
 rat tried to run under her she pecked
 at him viciously. Every time the rat
 came at the hen she dropped her
 wings and met him more than half
 way. Once the rat pulled out a little
 bunch of feathers, but his jump was
 short and he failed to catch the hen's
 neck. This made the hen more angry.
 She went at the rat in earnest. The
 two fought for half an hour and the
 hen killed the rat. The rat weighed
 three pounds.

Blowing Wells of South Carolina.
 South Carolina has a large number
 of "cold" or "blowing" wells. They
 are situated in the celebrated "Sand
 Hills region," and the majority of
 them are of enormous depth. The
 force of the current of air which con-
 tinually comes from them varies in
 intensity according to atmospheric
 conditions, being particularly strong
 for several hours before and after
 heavy thunderstorms.

A YOUNG GIRL'S FORTUNE.

AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's
 affection as her daughter just budding into
 womanhood. Following is an instance: "Our
 daughter, Blanche, now 15 years of age, had
 been terribly afflicted with nervousness, and
 had lost the entire use of her right arm. She
 was in such a condition that we had to keep
 her from school and abandon her music les-
 sons. In fact, we feared St. Vitus dance, and
 were positive but for an invaluable remedy she
 would have had that terrible affliction. We
 had employed physicians, but she received no
 benefit from them. The first of last August she
 weighed but 75 pounds, and although she has
 taken only three bottles of Nervine she now
 weighs 105 pounds; her nervousness and symp-
 toms of St. Vitus dance are entirely gone, she
 attends school regularly, and studies with com-
 fort and ease. She has recovered complete use
 of her arm, her appetite is splendid, and no
 money could procure for our daughter the health
 Dr. Miles' Nervine has brought her.

When my brother recommended the remedy
 I had no faith in patent medicines, and would
 not listen to him, but as a last resort he sent us
 a bottle, we began giving it to Blanche, and the
 effect was almost immediate."—Mrs. R. R.
 Bullock, Brighton, N. Y.

A WILD WIERD SCENE.

Much has been written of the
 Mammoth Cave, Kentucky,
 and yet the stories of its pic-
 turesque beauty, its enchant-
 ing domes and rock-strewn
 avenues have been but half
 told. But few there are who
 are acquainted with the inter-
 or. Among other sights of
 interest which there abound
 is a village of rude huts built
 in the years gone by. There
 were erected by a colony of
 consumptives, who thought
 that the even temperature
 (60 degrees Fahrenheit) of the
 cave would cure their dis-
 ease. The damp air how-
 ever, proved fatal and has-
 tened the death of all. Ear-
 lier in years had they taken
 Dr. McCleskey's Catarrh Cure,
 there is no doubt they would
 have lived to a ripe old age.
 \$200 reward for any disease

 cure. Don't experiment with

Catarrh
 AND
 COLD IN THE HEAD

relieved instantly by one application of
 Birney's Catarrh Powder

REV. FATHER CLARKE, Sec'y to the Rt. Rev. Bishop
 of Columbus, Ohio, writes:
 "Gentlemen:—I cannot say enough for your Powder. It has
 cured me of an aggravated attack of catarrh when nothing else
 could help me. Am delighted with it. All my friends to whom
 I administered samples are quite enthusiastic over it. The
 good sisters speak most encouragingly of their use of it in the
 hospital under their care. I will do anything to speak a good
 word for the remedy to help others who are suffering."
 M. E. FERGUSON, Custodian U. S. Appraiser's Stores,
 Chicago writes:
 "Gentlemen:—Being almost entirely deaf for a number of
 years past and getting no relief from many so-called cures
 which I tried, was induced by a friend to try Dr. Birney's Cat-
 arrh Powder for my deafness. Have recovered my hearing
 entirely, so that I can now hear a watch tick plainly, it being
 held 16 inches from my ear. Think you it is a positive cure
 for deafness and have recommended its use to many of my
 friends and can say I have never heard of a case where it has
 failed to relieve."

PERSONAL NOTES.

Walter Gilman Page of Boston has painted a standing portrait of Louis Agassiz for the Agassiz school at Jamaica Plain.

George Gould will hereafter make Lakewood, N. J., his legal home, and has informed the assessors there that they can tax him for personal property amounting to \$4,000,000.

Sarah Bernhardt recently invited 900 of the Students' association to witness one of her performances at the Theater Montparnasse, Paris. They occupied the entire lower floor.

The finest copy in existence of the first folio Shakespeare, 1623, is owned by the Baroness Burdett-Coutts. Very few copies of this edition have come down to us in perfect condition.

In the leisure moments of his professional duties Mounet-Sully reads a great deal, paints and makes portraits and busts, for he is a skillful amateur sculptor, of his friends and of the parts he plays. Another of his amusements is to collect bric-a-brac.

Mrs. U. S. Grant will make her home with her sons and their families in San Diego. The lot on which her home stands, 200 by 137 feet, was extensively improved by the former owner, the mansion costing him \$92,000. U. S. Grant, jr., got the whole for \$35,000.

Isaiah A. Hatch, well known as "the little man," died at Provincetown, Mass., last week. He was a midwife, deformed at birth, and at his death was but a little over three feet in height and weighed only eighty pounds. Mr. Hatch was sixty-three years old.

The people of Goettingen are going to build on their own account a kind of Babel tower to the memory of Bismarck. It was there that Bismarck went to study, and fought no less than thirty-six victorious duels, and it was in Goettingen that he had two American chums—John Lothrop Motley and Amory Coffin.

Madame Janaschek told the people of Baltimore the other day that the key to success on the stage at present was notoriety, no matter how infamously gained. "Coarseness and sensuality," she said, "seem to be the views of our nineteenth century life. The prize ring supplies the stage with its male stars, and the divorce court supplies it with its female stars."

Pope Leo has received lately a curious and valuable gift from the government of the United States of Columbia. It consists of three objects in gold, the intrinsic and material value of which is little when compared to their scientific and historic value. The objects are three plaques of massive and fine gold, which must have served as a breast covering for some Indian cacique. They were discovered in a "guaca" or Indian cemetery in the village of Macheta, about fifty miles from Bogota.

AFFAIRS IN FOREIGN LANDS.

London has 271 public parks containing 17,876 acres.

Sir John Lubbock asserts that \$250,000,000 is invested in building societies in England.

No More of That.

Lyman Gage, after a stirring meeting, had just gone off to bed, and was in his first sleep when he heard a loud knocking at the door, and a voice called out: "I am gathering the opinions of several prominent citizens on the so-and-so question; kindly tell me what you think of it." The next day Mr. Gage sent round a polite note to the proprietor of the paper in which this nocturnal interview was to have appeared: "If anything of the kind ever occurs again," he wrote, "I shall engage a man to go after midnight to your house and knock you up at three a. m., in order to ask you a question from me." He was never again troubled in the same way.

THE MICROSCOPE.

A careful microscopic examination and chemical analysis of the urine, is a valuable aid in determining the nature of many chronic diseases, particularly those of the nervous system, blood, liver, kidneys, and bladder. These aids make it possible to treat such diseases successfully at a distance, without personal examination of the patient. Thus Bright's Disease of the Kidneys, Inflammation of the Bladder, Gravel, and other Diseases of the Urinary Organs are successfully treated. Nervous Debility, Exhaustion, Dropsy, Liver Disease, and many other Chronic Maladies are cured without seeing the patient.
